CIS 116 Credit by Examination Form (via CIS 200)

Approval is required for students who feel that they have enough programming experience and wish to skip CIS 116 and enroll directly in CIS 200. To get credit by department exam for CIS 116:

- The student can not have already taken CIS 116 at Kansas State University.
- The student must have a minimum of 1 credit hour of programming. This credit may be reviewed on a case by case basis.
- The student must earn an "A" or "B" in CIS 200 at Kansas State University. This grade earned will then be assigned for CIS 116.
- If the student gets a 'C' or lower in CIS 200, the student will be required to enroll in CIS 116 and will not be given credit by examination for CIS 116.

By signing this form, the student acknowledges that they are familiar with the course topics checked below and agree to the terms listed above. By signing, the student also acknowledges that they are expected to be familiar with topics not known (left unchecked below) when taking CIS 200. Signed consent from both the CIS 116 and CIS 200 faculty, in addition to the student's primary advisor, is required.

Student Name (Please Print): _____

WID: _____   *Semester enrolling in CIS 200:* _____
